endota spa arrives in bowral...

endota's first Bowral spa 'officially' opens in Bong Bong Street on May 15, 2009 with an exclusive party to celebrate the spa's opening.

Operating since January, **endota bowral** has received a fantastic reception from Southern Highlanders as well as those from Sydney and Canberra seeking a true 'day spa experience' in their home town.

According to co-owner Yvette Lever, she and her business partner Vanessa Velten, felt that there was a niche in the Southern Highlands market for a pampering day spa that used beautiful organic products in an elegant environment.

"To date we have been right with more than 600 people visiting our spa since we opened for treatments at the beginning of this year," she said.

Endota spa Bowral is one of 36 endota spa's around Australia. An Australian owned company, Endota has a simple philosophy - to provide stand out service, in fresh, appealing surrounds and incredible, enticing treatments at reasonable prices.

"So far this is appealing to our clientele," said Yvette.

"We have put together a fantastic team of therapists with our four talented beauty therapists, Nicky Millbank, Naomi Stulberg, Pam Ekelund and Jessica Stokes all bringing local day spa experience with a loyal following of clientele.

Open 7 days a week, endota spa Bowral has three pampering treatment rooms complete with one double room, specialised pregnancy, group and girls day out and bridal party packages... and of course the 'blokes' packages which are highly sought after.

Also available are the unique Endota gift vouchers, which can be redeemed at any endota spa around Australia.

If you would like to arrange a private spa tour and a complimentary Billabong-bong footbath or for further information please contact Yvette Lever on 0418 166 242.
